Overview

TTI has a long-standing commitment to supporting communities in which we operate. With the understanding that the robust community programs are good for business and our stakeholders, oversight of our community investment strategy remains an important objective of our social initiatives.

TTI recognizes the importance of engaging with communities to jointly address environmental and social concerns. At the corporate level, our strategic plan for community engagement focuses on key areas most relevant to our company and those that will create the biggest impact to our business and the communities in which we serve. These include promoting women's rights and education, fighting modern slavery and poverty, developing clean technology and raw material sustainability and responsibility.

In 2019, we continued our engagement with local communities across different business units by donating tools, providing financial support and encouraging our employees to volunteer their time and effort. Some of our business units allocate a specific number of working hours or days for employees to volunteer for their favorite charity. Our employees can choose a variety of areas to support, ranging from the environment, education, home building and child wellness to sports.

Some of our business units have formal committees that select organizations through which employees can embark on community engagement projects. Other business units sponsor the same causes annually while also evaluating new partnerships as they arise. In 2019, in-kind donations of tools and other items, equivalent to approximately US\$830,000, US\$1.1 million in financial support and over 4,100 hours of volunteer time were donated by TTI and our employees globally. We also partnered with or supported over 50 programs run by charities and NGOs. Here are a few of our many engagement activities by region in 2019.

Environmental and Disaster Relief Initiatives

Asia

An environmental initiative that continues to be championed by TTI HK is its Green Fair. The fair is held at the office to support local organic farmers and fair-trade merchants and all proceeds are donated to the New Life Psychiatric Rehabilitation Association to provide support to individuals with mental health issues in the community. As part of this initiative, TTI HK employees along with their family members visit the Go Green Organic Farm to enjoy a day out and learn about farming and biodiversity in Hong Kong.

EMEA

In TTI MEA, US\$15,000 worth of products, such as generators, pumps and lights, were donated to support disaster relief after the Mozambique hurricane.

North America

Another environmental endeavor is TTI Canada's participation in the CN Tower Climb, raising US\$1,636 for the World Wildlife Fund (WWF). In 2019, TTI Canada was proud to run a national program for 40ceans raising US\$1,152 which equates to eliminating the equivalent of 0.062 tonnes of waste from oceans and shorelines.

Home-building and Support for Veterans

In 2019, TTI became a global partner of Habitat for Humanity. Habitat for Humanity is an NGO with programs tackling the issue of homelessness in the community and focuses on building new homes for low-income households.

A global partner with

TTI PE donated products, helping Habitat affiliates build homes, communities and hope for various locations in the United States. TTI employees volunteered more than 480 hours in the Habitat Executive Build program, showing their support to the local communities where TTI sponsored house building for underprivileged families. TTI PE employees volunteer in the Habitat – Women's Build program and also support the program by raising money to fund the cost of building houses.

Apart from Habitat, TTI PE works with The Home Depot Foundation and Team Depot, a 400,000-strong army of associate volunteers, to improve the homes and lives of United States veterans. The Foundation trained skilled tradespeople to fill labor gaps and support communities impacted by natural disasters.

Environmental, Social and Governance Report

TTI Canada also supports Habitat for Humanity on a national level and 47 colleagues were involved in four Habitat for Humanity builds with one in both Montreal and Calgary and two in Toronto in 2019.

Another business unit, Milwaukee Brookfield also worked to build homes for those in need, specifically veterans. Milwaukee supported the Veterans Outreach of Wisconsin (VOW) and Operation Tiny Home (OTH) organizations in 2019. Engagement with VOW and OTH entailed eight volunteers contributing 88 hours to help homeless and at-risk veterans by providing food, clothing, shelter and other basic human needs. Cash contributions were also donated to purchase land and complete surveys, and 65 tools were donated to veterans.

Nurturing the Next Generation

Our business units support a number of educational and wellbeing initiatives for youth across the globe.

Asia

A number of Asian community initiatives are focused on youth development. In Hong Kong, TTI has been providing practical design technology workshops to BTEC Engineering high school students from the English School Foundation, West Island School. In 2019, the workshop extended into a 4-day study tour at TTI AIP. Through the tour, students were able to learn from experts representing different brands and production lines and receive hands-on tool training at the Pudwill Leadership Center (PLC).

Students from West Island School were also able to take part in an 8-week Concept Engineering Internship Program in 2019. During this, students studied drill and impact driver electro-mechanisms for one week, joined 101 PLC training sessions and a factory tour for one week and learned about concept development and prototyping for the remaining six weeks.

From 2017 to 2019, TTI HK actively supported the Hong Kong University of Science and Technology, the Technological and Higher Education Institute of Hong Kong (THEi) and the Hong Kong Design Institute (HKDI) in creating higher-quality product design and engineering programs. We provided internships for 41 individuals from around the world. Our interns are on average, 20-years old and hail from different educational backgrounds, with many coming from overseas universities, such as the University of British Columbia, Oxford University, McGill University and the University of Manchester. During the program, interns were assigned to various departments with some working for multiple departments during their time with TTI HK. Two interns joined TTI HK following their internship with the company.

Outside of Hong Kong, youth development is also pursued in locations like Cambodia. TTI provided power tools for the construction of three educational facilities at Kung Ruth Village, Cambodia through The IDEA Project in 2019, with the project and volunteer tour scheduled to take place in early 2020.

EMEA

In the EMEA region, German business units such as DreBo Germany supported specific areas of education, sports and local associations focusing on youth and children. Programs included support for children and teens in a local traditional music society, youth and children's festival support and engagement with local kindergartens.

North America

TTI Canada supports children's education and sports activities such as baseball and hockey through monetary donations. Milwaukee Brookfield also engaged in various projects to nurture youth. The main goal of their initiatives in 2019 included stimulating interest in Science, Technology, Engineering and Mathematics (STEM) education. As part of the STEM education program, the Milwaukee business unit organized a First Robotics Day for employees to be mentors to teams. For this project, 25 employees signed up to volunteer and six employees were placed as mentors contributing 350 hours as part of Weekly First Mentorships. Another initiative planned was a STEM activity for 60 students from Burleigh Elementary, whose task was to work with eight TTI volunteers to use lemons and potatoes to light up a light bulb. The Milwaukee team also participated in the NSBE Professional Partners in the Classroom (PPIC) program at a local high school, Bradley Tech, to discuss careers in STEM and financial information with high school students approaching graduation. Other initiatives were CareerX and Careers Uncovered programs where TTI participated with other companies to promote STEM technical careers at Milwaukee and Waukesha Schools. Our employees also volunteered in the LAUNCH Innovation Challenge where they mentored student teams on challenges posed by Milwaukee employees to solve real business problems.

Supporting Women and Girls

A member of

Asia

With women's rights and education identified as a key area for TTI, in 2019 TTI HK ran an internship program with the Asian University of Women (AUW). AUW caters to students from 20 countries around the region that are home to marginalized groups, including garment factory workers, Rohingya refugees and women from conflict zones in Afghanistan, Syria and Yemen. By recruiting from marginalized groups, AUW aims to identify talent in places where women's potential is undervalued or ignored. In this way, the university provides a platform for women with few opportunities to acquire a world-class education and create and sustain international networks of women leaders and their supporters.

TTI's internship program provided AUW students with invaluable work experience, while allowing personal and professional development to occur. Through this initiative, we were delighted to introduce these women to the professional working world, empowering them and giving them the opportunity to improve their decision-making, organizational, communication and interpersonal skills. TTI HK is committed to continuing this partnership with AUW in 2020.

North America

One of the initiatives TTI Canada is very proud of over the past four years is participation in the unique program, 'Girls Can Too', which introduces construction skills to female high school students from low-income families in Toronto. This practical program is operated by the Toronto Region Conservation Authority with the assistance and support of key members of the design, construction and related industries including E.R.A. Architects and Milwaukee Tools.

Healthcare Initiatives

North America

Other donations and programs supported by TTI are in the area of healthcare.

TTI PE contributed to the following initiatives in 2019:

- Replay for Life for American Cancer Society: a local fundraising effort by employees benefiting cancer research. US\$19,000 was contributed in 2019
- City of Hope: participation in fundraising in support of cancer research and caregiving with US\$30,000 donated annually
- American Red Cross: corporate donation to hurricane relief efforts with US\$50,000 given in 2019
- The Blood Connection: employee support of local blood bank every quarter
- Shalom Bike Race: providing holistic recovery for women addicted to alcohol and drugs

Participant of

TTI Canada also gives to local health charities through bereavement donations, supports the Canadian Cancer Society and participates in various other healthcare initiatives. In 2019, 29 colleagues participated in volleyball events to raise funds for the SickKids Foundation. In addition, 29 colleagues participated in the Heart & Stroke Big Bike Ride, raising US\$1,925 for research and care.

TTI NA supports Autism Speaks through monetary contributions and participation in a yearly walk and run for employees and their families.

ANZ

TTI ANZ continues a strong affiliation with a local mental health charity called Beyond Blue.

Other Community Programs

Other community initiatives by region in 2019 were as follows.

North America

TTI PE also runs a TTI Power Equipment campaign for United Way supported by employee contributions with over US\$30,000 contributed annually. Additionally, this business unit supported local YMCA efforts through fundraising donations, donating US\$10,000 worth of tools.

TTI Canada joined National Cupcake Day with 50 colleagues, raising funds in support of local shelters, SPCA's and Humane Societies to promote animal welfare. Other initiatives included 32

TTI colleagues working to sort and pack 2,500 gift boxes for underprivileged children as part of the Santa Claus Fund and four colleagues participating in a the 5K Holly Jolly Run at the Santa Claus Parade. In addition, in 2019, TTI Canada joined the Home Depot Foundation's charity golf tournament and ran a Volunteer for a Day program.

Milwaukee in Brookfield's other community initiatives included a number of hunger relief projects in 2019 where 172 volunteers contributed 555 hours of service. Initiatives included the distribution of food and material donations.

At Milwaukee's Olive Branch location, the company planned 12 events with 210 participants volunteering a total of 763 hours. Some focused on veterans appreciation and others food pantry donations, back-to-school drives and an industry mentorship program.

Industry Engagement

Our community engagement also takes the form of participation in industry-wide activities. We have been involved in the following international industry shows and exhibitions, and recognized with a number of awards for our Innovative Design.

Shows and Exhibitions:

- Technological and Higher Education Institute of Hong Kong Degree Show
- The Greater Bay Area – Dongguan Innovation and Creativity Based Show
- Poland and Brazil exhibition organized by the Hong Kong Electrical Appliance Industries Association
- Hong Kong Design Institute Degree Show
